

1L AQUAPure Sterile Waters

Sterile Bottles Sized to Fit Your Workflow

Aquabilti's sterile water combines unmatched purity with the convenience of readily available, easy to handle single-use packaging. Aquabilti's sterile **1L Water Bottles** are ideal for applications where precision, portability, and smaller volumes are key. Made from a high-quality PETG material, our bottles deliver the same trusted quality as our large-scale formats, all in a convenient, lightweight package.

1L

Key Features and Benefits

Sized Perfectly to Fit Your Workflow

- 💧 **Lightweight and Ergonomic Design** makes bottles easy to handle in cleanroom or lab settings.
- 💧 **Engineered for Versatility** making them usable in a wide range of further manufacturing applications including lab work, R&D, instrument cleanings, and more, but not intended for direct therapeutic use.

Smart & Functional Design

- 💧 **Compact Bottles** reduce storage demand and disposal problems when compared to larger alternatives.
- 💧 **Made from Durable PETG Material** for superior durability and break resistance during shipping and storage.
- 💧 **Optically Clear Bottle** allows for quick visible inspection of contents, enhancing quality control.
- 💧 **Sealed Screw Cap** ensures bottles are completely leak free and contamination free while remaining easy to open.

Pure and Reliable Quality Every Time

- 💧 **Stringent Quality Management** ensures a top-quality product with every fill.
- 💧 **Consistent High Quality** while supporting industry-best lead times and pricing.
- 💧 **Sterile & Pyrogen-Free Product** is produced and filled in controlled environments ensuring uncompromised purity.
